Behavioral Theory Of The Firm

The behavioral theory of the firm first appeared in the 1963 book *A Behavioral Theory of the Firm* by Richard M. Cyert and James G. March. The work on the behavioral theory started in 1952 when March, a political scientist, joined Carnegie Mellon University, where Cyert was an economist. Before this model was formed, the existing theory of the firm had two main assumptions: profit maximization and perfect knowledge. Cyert and March questioned these two critical assumptions.
