Replace Receipt Paper Roll on an Ingenico iWL220, iWL250 ...

Use heavy paper or cardstock. Print or write your spine label on paper or cardstock that is sturdy. This will make it much easier to insert into your binder than a thin piece of paper. If you design your label on the computer, make sure the printer you use can print on heavier paper. Check the manual or do a test run with thicker paper first.

3 Ways to Insert a Label Into a Binder Spine - wikiHow

The input tray holds 150 pages of 75 g/m² paper, or fewer sheets of heavier media (a 15 mm stack height or less). Load media with the top forward and the side to be printed on facing up. To prevent jams and skewing, always adjust the side and front media guides.
