MIS. They are based on publically available information regarding different organizations. It might be nice to have additional inside information, but this level of detail is rarely available to students (and teachers). Instead, most of these cases look at larger problems over time—which provides useful insight into causes and attempts at ...

Management Information Systems Cases

Case Study One (teams of five) Case Study One is the smallest of the case studies (25 pages) and looks at the problems that a chemical company (Company Y) experienced when it attempted to implement a particular type of information system (MRP II) in its plants. The case study is based on five interviews with directors and senior managers in the company.
