Running Surround Sound Wires via Baseboards and Baseboard Moulding. This really is the simplest way for running wires for surround sound speakers if you have a carpeted room, and you can get from one location to another without encountering a non-thresholded doorway. Even then there are options. Carpets are laid down through the use of tack strips.

### Running Wires for Surround Sound Speakers | AV Gadgets

Surround sound uses multiple audio channels and an array of speakers to reproduce audio. This affords a more realistic emulation of sound than the typical 2.1 stereo setup. The more numbers (audio channels) added to a given configuration, the more realistic the sound is. There are three popular configurations: 5.1, 7.1, and 9.1. Great.
